MESSAGE

Dear Shri A Mahalingam,

I am pleased to learn of the launching of Association for Healthcare Management Professionals.

With increasing emphasis on access to quality healthcare, new emerging models of healthcare management, there is a strong need to synergize ideas and efforts across different layers and players of healthcare. So, this effort comes at an appropriate time in India's healthcare journey.

Best wishes for AHMP to succeed in its mission and become a top healthcare association.

Prof Ashok Jhunjhunwala
